

what is UGNAYAN

UGNAYAN is a national youth-focused event that gives Filipino young leaders and institutions alike a venue to discuss possible points of development for the country and the rest of the world. It is being held as a three-day in-house national youth summit participated by Filipino young leaders from different schools, colleges, universities, and organizations coming from all over the country.

The term *ugnayan* is a Filipino word that refers to the state of being connected of two or more things.

the ORGANIZER

The event is organized and convened annually by the **National Alliance of Youth Leaders (NAYL)**, an alliance of young leaders in the Philippines uniting for reforms in education, voters' education, climate justice, freedom and rights on the Internet, youth empowerment and development, and other relevant societal issues.

Composed of mostly young leaders from the country's top universities, namely the University of the Philippines, Ateneo de Manila University, De La Salle University, and University of Santo Tomas, this young organization has managed to worked competitively with private institutions and foundations as well as government bodies, such as the CHED, the COMELEC, and the National Youth Commission.

UGNAYAN 2016

"ONE ASEAN: Physically Divided, Politically United"

The theme this year will dig deep into the Political-Security Pillar of the ASEAN Integration in an effort to analyze and relate this regional political-security aspect of the ASEAN to the Philippines' national electoral and political systems: finding similarities, pointing out differences, and proposing possible points for improvement, integration, adoption, or development.

1 POLITICAL-SECURITY

Pillar of the ASEAN Integration

Learn all about the Political-Security Pillar of the ASEAN Integration especially on the agreed ASEAN Political-Security Community (APSC), its aims to ensure that member states live in peace with one another and with the world, in a just, democratic, and harmonious environment.

2 ROLE OF THE ASEAN

in the Politics, Governance, and Security of its Member States

Discuss extensively on the potential role of the ASEAN as being the focal point for inter-regional cooperation and regional stabilizer among its member states and between the rest of the world, in order to create a balance and synergy among these actors and to develop dependability of action within political cooperation.

3 BACKGROUND

on the Political and Electoral Systems in the Philippines

Understand the electoral and political system, and even culture, that the Philippines and its people are immersed in, perhaps dating back to the Spanish era to the establishment, again and again, of a number of Philippine Republics until the one it is today.

4 THE FILIPINO YOUTH

in the ASEAN and in the Philippine Governance

Learn and take inspiration on where the Filipino Youth perhaps is standing at present amidst the present-day situation of Philippine politics, security, and governance, as well as in the on-going regional integration in the ASEAN Region; and how young Filipinos could realize their important role in moving forward to a better community of leaders and impassioned citizenship.
